PROJECTS

appwriteblog
Blog Website | September 2024 | HTML, CSS, JavaScript, React, Redux, Tailwind, Appwrite
- appwriteblog is a fully responsive and interactive blogging platform designed to provide users with a seamless reading and writing experience. The website allows users to create, edit, and publish blog posts on various topics, share them with a broad audience, and interact with other blog posts through comments and likes. With a sleek design and intuitive navigation, appwriteblog aims to foster a community of writers and readers by offering personalized recommendations, social sharing features, and a rich text editor for authors.
